### E-commerce website

2021-2023

- Designed, developed, and implemented a comprehensive e-commerce website .
- Integrated multiple APIs to provide real-time information to users enhancing the website's functionality and user experience.
- Implemented user authentication and authorization mechanisms to ensure secure access to sensitive data.

TECHNOLOGIES - MONGODB ,EXPRESS JS ,REACT JS ,NODE JS

### Flight booking system

2021-2023

- Integrated multiple APIs to provide real-time information to users enhancing the website's functionality and user experience.
- Designed, developed, and maintained the company's travel booking website, ensuring a seamless and visually appealing user experience

TECHNOLOGIES - MONGODB ,EXPRESS JS ,REACT JS ,NODE JS

### Car Buy/Sell Portal

- I played a key role in developing this system, which requires sellers to enter detailed information about their cars, including manufacturing year, model, engine condition, accident history, paint condition, and more. These factors are then used by our algorithm to calculate the most accurate value for the car. We also implemented a verification process to ensure the accuracy of the information provided. This system empowers users to buy and sell cars with confidence, knowing that they are getting a fair price.

TECHNOLOGIES - REACT JS, FIREBASE REALTIME DATABASE
